ENCLOSURES (NO. & TYPE)

REMARKS

This is UNEVALUATED Information

25X1

1. Between 4 and 9 February 1955, the barracks installation on Schumke Lake was occupied by approximately 2,500 soldiers wearing red-bordered black and blue-bordered black epaulets. On 8 February, a TMP-type steel pontoon was seen during the dismantling of pre-war training facilities in Schumke Lake. Three open wooden sheds had been built just southwest of the officer houses on Hege Lake. When the construction was still under way, the sheds had already been occupied by motor vehicles. 1
2. At 0745 on 8 February, a column of 36 tank trucks with trailers and 4 trucks without trailers left the barracks installation on Schumke Lake and proceeded to Rehagen via Kummersdorf.

5. Between 10 and 19 February. the Artillerie Kaserne (3281) in Kummersdorf was occupied by 1,900 to 2,000 soldiers wearing red-bordered black and black-bordered crimson epaulets. Three hundred to 400 soldiers wearing black-bordered crimson epaulets daily practiced attacks against field fortifications in the restricted area. Similar exercises were also observed between 1900 and 2300 during the period under review.
6. The construction of covers for the trenches continued. Every 3 meters, a section of approximately 2 meters remained uncovered.

9. On 12 February. a truck column, which was cleaned in the Lutz Kaserne (3603) in Wuensdorf included vehicles [redacted] the column returned from an exercise which was held on the Elbe River near Wittenberge. The Lutz Kaserne was occupied by approximately 1,600 soldiers including 1,200 soldiers wearing red-bordered black epaulets, approximately 300 soldiers wearing black epaulets and approximately 100 soldiers wearing black-bordered crimson epaulets. 6
10. On 11 February. approximately 400 soldiers from the Lutz Kaserne participated in an exercise which was held in the Wuensdorf area. The exercise also involved units from the Neue Kaserne (3643) in Wuensdorf with 18 T-34/85 tanks and 12 trucks with soldiers. The units returned in the morning of 12 February. 7 Motor vehicles [redacted] of the supply unit were observed in the installation. The drivers of the vehicles were Germans. 6
11. At about 1800 on 11 February, an engineer column of trucks with pontoons and bridge building equipment, van-like trucks and three-axle amphibious vehicles was seen in Zossen en route toward Sperenberg, presumably 6 to the Schumke Kaserne. Truck [redacted] was seen. 8
12. On 12 February. approximately 20 large amphibious vehicles were lined up for a roll call in the installation on Schumke Lake, which was occupied by approximately 1,000 soldiers, most of whom wore black epaulets and some red-bordered black epaulets. A column of 15 tank trucks with trailers was ready to depart. [redacted] were seen. The column almost daily left the Schumke Kaserne toward Luckenwalde and returned to the installation, allegedly with filled tanks. 1, 2

1. Comment. The installation on Schumke Lake appeared to be occupied as previously by the units with amphibious vehicles of both types. 25X1
2. Comment. The columns of tank trucks which were repeatedly seen in the installation on Schumke Lake presumably supplied the units of the Third Gds Mecz Army stationed in the Wuensdorf area and, possibly, units of the GSFG from the fuel depot of the Third Gds Mecz Army in Kummersdorf. The numbers of the tank vehicles are believed to belong to GSFG. 25X1
3. Comment. The motor vehicle in the Sperenberg area are believed to belong to GSFG, the Third Gds Mecz Army and the 2d Gds AAA Div. 25X1
4. Comment. Units of the 2d Gds AAA Div are confirmed in the Eisenbahnpionier Kaserne (3381) in Rehagen by weapons observed there. 25X1
25X1
25X1
5. Comment. The information indicates no major changes in the occupation of the Artillerie Kaserne in Kummersdorf. Information on the exercises checks with observations at other posts in the zone. The partial covering of field trenches may be a protective measure in case of employment of atomic weapons. Most of the motor vehicle seen in the installation are believed to belong to GSFG. 25X1
25X1
6. Comment. A column of the elements of the 56th Motor Trans Regt of GSFG stationed in the Lutz Kaserne presumably conducted a march practice toward the Elbe River. Exercises of major units on the Elbe River in the Wittenberge or Wittenberg area have not been observed so far. 25X1
7. Comment. In addition to elements of the units stationed in the Lutz Kaserne, elements of the 70th Mecz Regt of the 9th Mecz Div from Neue Kaserne also participated in the post exercise in Wuensdorf on 11 and 12 February. 25X1
8. Comment. The engineer column observed on 11 February probably belonged to the 35th Engr Regt of the Third Gds Mecz Army. 25X1
9. Comment. The exercise which was held in the Hege Lake area on 14 February presumably involved elements of the 35th Engr Regt and the 70th Mecz Regt of the 9th Mecz Div. Tanks have not been observed with army engineer units so far. 25X1
10. Comment. the driving school vehicles are believed to belong to units of GSFG stationed at Kummersdorf where the bulk of the 56th Motor Trans Regt of GSFG is quartered in the Artillerie Kaserne (3281). 25X1
